# Parts make a whole

Difficulty: Easy

## Challenge

The file shows communication between a PLC and an ICS workstation. Analyze the file to get the flag! (use modbus.pcapng).

flag format: CTF{}

## Hints

Packets too, flow like streams and rivers

# Haystack

Difficulty: Medium

## Challenge

This time, we have captured some network traffic from a **website** that we think has two flags on it. However, we were not able to filter out unnecessary packets, so you will have to sift through them to find the HTTP packets containing the flags. Good luck! (Haystack.pcap).

This Challenge has two flags and both are in the format: ctfa{}

## Hints

This website does not encrypt its communication
